Title: **Here We Are**  
Artist: **SPHINX**

The fusion of progressive rock and heavy metal was shaped by bands like Dream Theater, but by no means invented. Already in the seventies you can find many hard guitars in the world of rather complicated music and vice versa, the once young savages like Iron Maiden incorporated prog into their metal with songs like „Phantom Of The Opera“.

Consequently, by 1981 SPHINX were already several years ahead of their time. The band from the Stuttgart area, founded in 1977, consisted mostly of Italian immigrant workers' sons. This gave the band an international flair. „Rock Made In Italy“, as you can read on the original cover of „Here We Are“, was therefore just a promotional gimmick. Especially, because the guitarist Thomas Metzger is none other than Tommy Newton, who later became famous with the band Victory. His powerful and hard playing is the antithesis to the playful and just very progressive keyboards and the rhythm section, which typically like to break out of the four-four time.

„Here We Are“ was released in 1981 by Peak, a label of the company GAMA, which at that time was still quite a newbie and could not yet push through such a high-class product. In 1985 the LP appeared a second time as „Burning Lights“. Mausoleum and also Camel (also a GAMA label) tried to give the album a second chance with a typical heavy metal cover artwork and a rearranged tracklist.

Thereupon, under this name and with this look, the record became many times more famous than the original from 1981. However, even at that time the metal world was not yet ready for this style, while prog fans were rather put off by the new cover. While Tommy Newton started a successful career and has also been a producer for many years, the rest of the musicians disappeared into obscurity. Many years later „Here We Are“ (aka „Burning Lights“) became cult, even if so far only in metal circles. With this reissue, Golden Core also wants to show prog-rock fans what a brilliant album they missed in 1981. And those who like bands like Dream Theater anyway will find a piece of heaven here.

Title: **Back In The Saddle**  
Artist: **RHABSTALLION**

**RHABSTALLION - „Back In The Saddle“**

Of course, one could tell now the whole story of this British band, but that would exceptionally not meet the character of the album „Back In The Saddle“. So let's postpone the NWOBHM reference to a little later and talk about what this new disc means for every fan, from rockers to metalheads: a highlight of 2021, an ultimate surprise, a proof that even seasoned men can give vent to their youthful energy, and ultimately an album that perfectly fits to the Wacken campground as well as to the ghetto blaster at insider underground festivals. This tightrope walk can only work, if you don't force it on purpose, but simply celebrate the music you love, like Rhabstallion does!

Of course, Rhabstallion are anything but nonames! On the cult sampler „New Electric Warriors“ (1980, Logo Records), which serious NWOBHM collectors (must) have in their collection, the band made people take first notice of them. More difficult and expensive is the 1981 single „Day To Day/Breadline“, which is a real rarity today. An appearance on the BBC program „Bubbling Under“ was the next highlight. However, the band's career could not be built on this. For various reasons Rhabstallion disbanded despite offers from record companies. In 1994 the Vinyl Tap label released a kind of Best Of called „Day To Day“ on CD and the group appeared in the NWOBHM books published by Iron Pages. Since then the name has manifested a household name in those fan and collector circles. Since 2018 Rhabstallion are back again, and even in their original line-up! Their performance at Brofest in Newcastle resulted in a lot of good reviews, partly with superlatives like „best band of the whole festival“. This energy can now be found on „Back In The Saddle“, which consists of old and new compositions. The production is at the upper limit of „oldschool“, but just not modern. This also applies to the songs, which do not try to „mix the old with the modern“, which basically fails with such acts. Rhabstallion bring traditional NWOBHM values into the year 2021, without smarming to something or someone else. Everything is genuine and authentic, yet punchy and skillfully produced - damn rare for a returning „old band“!
