Title: **Floating Opera**  
 Artist: **FLOATING OPERA**

Between January and the end of April 2021 the metal label Golden Core releases six „hard rock themes from 1980 and 1981“, mostly on CD as well as on LP.

After the hard rockers Piledriver and the powerful prog by Requiem, it is now FLOATING OPERA's turn. Describing this band and the eponymous record is a bit complex.

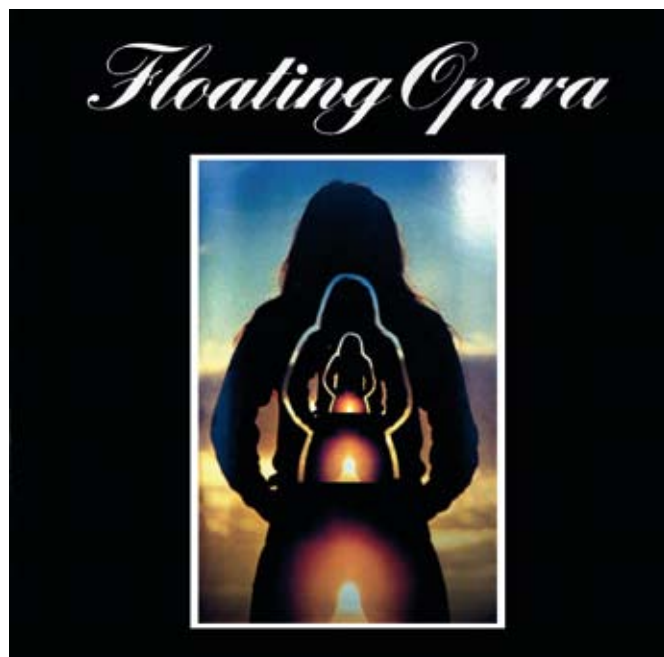

„The hard, guitar-focused rock features many solos and was powerfully produced. Also a few obligatory ballads may not be missing (...)“, wrote the online magazine Cosmic Dreams At Play (1996). This is actually not wrong, but some more ingredients have to be mentioned.

Even without intricate, complicated parts, the prog of the seventies still resonates in „Floating Opera“. On the other hand, their style would be classified as proto-metal today. Among other things, heavy metal fans will notice while listening to the title track, that the vocals by Andreas Ulbricht partly remind of J.D. Kimball from Omen. Although first released in 1981, so a bit late for this style, the word Krautrock may also come to the listener's mind.

For several weeks we have unsuccessfully searched for more info about this band. He has nothing to do with rock and metal anymore, but drummer Peter Garattoni is still known by insiders.

He is known not only as the drummer of Eulenspygel, but also as one of two „bosses“ of the company GAMA Musikverlag, which became known as a label and publishing company for heavy metal at the early 80s (Stormwitch, Gravestone, Tyrant, SDI, Darkness, Tokyo Blade...) and where he also appeared as a drummer on several releases (Veto, Maniac, Tox).

The other members of FLOATING OPERA from the Stuttgart area are not known even to older insiders. But fans of sophisticated hard rock can look forward to the first remastered re-release on CD and on LP. The vinyl was overdubbed by Patrick Engel at Temple Of Disharmony and subsequently remastered by Neudi. The LP was additionally mastered by Vadim Kulin to the needs of the medium vinyl. The booklet contains liner notes by Neudi, which also discuss „the early phase of GAMA Records“. Of course we also provide scans of the original vinyl and the LP comes with a printed, colored inlay.

Title: **Red Neck Roller**  
 Artist: **POKER**

Sometimes you wonder why a record remained unknown and only attracted attention regionally. With Poker you don't know where to start with all the arguments that should have made them conquer the rock world. Let's start with the musicians who founded this band in 1980. The name Kin Ping Meh appears twice, making Krautrock fans sit up and take notice. Guitarist Gagey Mrozeck and singer Michael Pozz belonged to this legendary band, while Peter Oehler (guitar) and Jürgen Astor (drums) came from the Geff Harrison Band. Not only related to the Mannheim area, Poker was an all-star group, especially since the names „Nine Days Wonder“ and „Twenty Sixty Six And Then“ have to be mentioned as well, so that the list of ex-bands is halfway complete.

The energetic hard rock was put on LP in 1981 with an internationally competitive production. „Red Neck Roller“ is the name of the „red thing“, which was artistically exciting in terms of the visual concept, but also seems to be of little significance.

Even the vinyl itself was red. Neither the cover nor the inside contained a band photo. Another problem was the label SL-Records (Gama), which was still quite new in the business and had by far not such a distribution potential like a major company.

Today the experts agree: If „Red Neck Roller“ had been released by one of the big companies, it would have „really hit the spot“! The previously unreleased demo from 1983, which can be found as a bonus on the CD version of this re-release (the LP contains one track of the demo), supports this assumption. Assumption? Let's rather call it fact.

So „Red Neck Roller“ became the first and only album of the band.

And this album is now released in new splendor for the first time as a reissue (CD, LP) in cooperation with the band (Peter Oehler) and Break Out Classics (Mike Möller) via Golden Core, remastered by Neudi.

Some of the band members made a career after Poker was history!

Gagey Mrozeck joined Herbert Grönemeyer and wrote for him e.g. the hit „Alkohol“. After his time with Edo Zanki and Poker he was an important part for Grönemeyer from 1982 to 1990. Michael Pozz and Jürgen Astor remained true to rock music! Both joined the British group Tokyo Blade and had their own band called Dead Ballerinas. Astor also drummed with Stahl, while Peter Oehler changed genres and played with Costa Cordalis for many years.

Being aware of all those names, it's okay to be a little awestruck. Listening to „Red Neck Roller“, this concentrated competence stands out! It is rounded off by the banal fact that the music of Poker simply rocks! The CD and LP include liner notes, as well as some rare photos and memorabilia.

Artist: **DARK HEAVENS**

**Dark Heavens**, a metal trio from California, are venturing across the pond. After they could already celebrate first smaller successes in their home state, the musicians around professional skateboarder and frontman Donovan Dresti now want to conquer Europe.

„Nuclear Eagle“ is an interesting, atmospheric metal album from the Golden State of California, which once again proves that three people who master their instruments are quite enough to capture powerful music on CD.

Title: **The Remixes 2**Artist: **SEA OF SIN**

The last months were a very challenging time for bands and musicians - SEA OF SIN made the best out of the crisis and released more music than ever before. Highlights were especially the many remix collaborations with renowned international acts of the indie/synthpop scene. Among others Mesh from UK, whose remix of „Turn Back Time“ climbed to #3 in the German Electronic Web Charts, as well as the remix EP to „Unspoken Words“ (#2 in the German Alternative Charts) with Nite (US). The final highlight was the remix collab with Man Without Country (UK) aka Ryan A. James for the song „Immaculate“. Ryan achieved great fame in recent years with his band Man Without Country (including remixes for Interpol, Moby and M83) and his collaboration with Röyksopp for whose hit „Sordid Affair“ Ryan contributed the vocals.

On 19.03. now the mentioned remixes appear for the first time with others on one CD - The Remixes 2 offers 17 different songs in Sea of Sin style and is supposed to continue the success story that was started to be written with „The Remixes 1“.
