Title: **Battlefields**  
 Artist: **SCAVENGER**

With Cutty Sark, Saints ☐ Anger, Witchfynde, Wildfire and Dark Wizard, Golden Core has already successfully re-released eight classics from the iconic label Mausoleum obtaining many praising reviews.

Actually, the series would have ended here, if the Belgian band SCAVENGER had not expressly requested that Golden Core also re-releases their album „Battlefields“ released in 1985, in order to make it available to fans in the same way. The new owner of the Mausoleum catalogue agreed and the project could get started.

Scavenger are actively playing and recording again, but since February 2020 without any original band member. Instead, the young and very strong new line-up around singer Tine Callebaut was literally trained by the „old ones“. A first single has already caused a stir and a new album is on the way.

In order to get back to the old days, Scavenger actively worked on the re-release of „Battlefields“, the only album recorded by the original line-up. So they donated the demo from 1982, which was released under the name Deep Throat and is now extremely rare and sought-after. A second-generation tape copy was reworked by Neudi (Golden Core Rec., Manilla Road, Trance, etc.) in the best possible way and reveals a group that was still deeply rooted in 70s hard rock even in 1982. Furthermore, as a bonus on CD, you will find various live tracks, which are, in terms of sound, really „for fans only“, but still perfectly reflect the spirit of the times.

The LP version contains only the album „Battlefields“ for sound technical reasons. For both formats, the Mausoleum-Classix CD was not taken, but a new vinyl transfer was commissioned from Patrick W. Engel, which was subsequently remastered by Neudi.

For the LP, Vadim Kulin (ZYX Studio) made a separate vinyl master. The booklet and LP inlay contain many rare photos, liner notes (exclusive interview with the band), memorabilia, as well as scans and an image of the original LP. In 1985, Scavenger skillfully straddled the line between pure European-style power metal and catchy but always powerful heavy metal.

Actually, it is clear that the album is considered one of THE classics of Euro Metal today.

This is proven not only by the fact that you can order a swimming costume online from the cover artwork of „Battlefields“.

Title: **Satan's Serenade**  
 Artist: **QUARTZ**

QUARTZ  
 Satan's Serenade/Nantucket Sleighride  
 LP, limited to 300 copies  
 LP enthält zwei Inlays

Quartz is not only one of the oldest active metal bands, but also belong to the founding fathers of the NWOBHM. Together with Samson and Marseilles they swept aside the hip punk movement of the late seventies, while being kind of vanguard to Iron Maiden or Saxon, even before the term „New Wave Of British Heavy Metal“ was coined a little later.

In 1977, the debut album „Quartz“, strongly reminiscent of Black Sabbath and later marketed a second time as „Deleted“, was released on Jet Records (Ozzy Osbourne among others). In 1980 they switched to the next industry giant: MCA. In the same year, they released the LP „Stand Up And Fight“. Both albums are popular classics today, but in between these releases there was an exciting period, resulting in two singles and a live LP. And of course Quartz's signature song: „Satan's Serenade“!

In between the impressive major deals, the small label Reddington's Rare Records took care of the band. As the name gives it away, it's actually a record shop, which is directly reminiscent of Metal Blade and Brian Slagel. You can notice the attention to detail: „Satan's Serenade“ was released as a 12" in red vinyl, while „Nantucket Sleighride“ was a 7" single, which was released in five versions (coloured vinyl and red or black cover). This positive madness was topped with a clear 7" flexidisc that was distributed as promocopy. Incidentally, RRR were also responsible for Paralex and Mayday.

Golden Core is extremely proud to present both legendary RRR singles now as a 12" EP (playing time: 25:47) in a limited edition of 300 copies. The LP includes a printed inlay and a reprint of the „Nantucket Sleighride“ single (on paper).

Liner notes include a recent, exclusive interview with drummer Malcolm Cope!

The original singles were overdubbed and audio-cleaned by Patrick Engel, then remastered by Neudi and adapted to the medium vinyl by Vadim Kulin (ZYX Studio).

A unique collector's item!

Title: **Floating Opera**  
 Artist: **FLOATING OPERA**

Between January and the end of April 2021 the metal label Golden Core releases six „hard rock themes from 1980 and 1981“, mostly on CD as well as on LP.

After the hard rockers Piledriver and the powerful prog by Requiem, it is now FLOATING OPERA's turn. Describing this band and the eponymous record is a bit complex.

„The hard, guitar-focused rock features many solos and was powerfully produced. Also a few obligatory ballads may not be missing (...)“, wrote the online magazine Cosmic Dreams At Play (1996). This is actually not wrong, but some more ingredients have to be mentioned.

Even without intricate, complicated parts, the prog of the seventies still resonates in „Floating Opera“. On the other hand, their style would be classified as proto-metal today. Among other things, heavy metal fans will notice while listening to the title track, that the vocals by Andreas Ulbricht partly remind of J.D. Kimball from Omen. Although first released in 1981, so a bit late for this style, the word Krautrock may also come to the listener's mind. For several weeks we have unsuccessfully searched for more info about this band. He has nothing to do with rock and metal anymore, but drummer Peter Garattoni is still known by insiders.

He is known not only as the drummer of Eulenspygel, but also as one of two „bosses“ of the company GAMA Musikverlag, which became known as a label and publishing company for heavy metal at the early 80s (Stormwitch, Gravestone, Tyrant, SDI, Darkness, Tokyo Blade...) and where he also appeared as a drummer on several releases (Veto, Maniac, Tox). The other members of FLOATING OPERA from the Stuttgart area are not known even to older insiders. But fans of sophisticated hard rock can look forward to the first remastered re-release on CD and on LP.

The vinyl was overdubbed by Patrick Engel at Temple Of Disharmony and subsequently remastered by Neudi. The LP was additionally mastered by Vadim Kulin to the needs of the medium vinyl. The booklet contains liner notes by Neudi, which also discuss „the early phase of GAMA Records“. Of course we also provide scans of the original vinyl and the LP comes with a printed, colored inlay.

Title: **Hope Springs Eternal**  
Artist: **SNOW WHITE BLOOD**

Snow White Blood was founded in 2013, plays symphonic metal and sets well-known fairy tales to music and interprets them in a completely new way. After the first EP „Once Upon A Fairytale“ (2016), it is time to open a new fairytale chapter. The musicians will release their long-awaited debut album „Hope Springs Eternal“ on 13.11.2020. The first single „Shared Hearts“ was added to three major playlists on the day of release by market leader Spotify with a total of more than 900,000 followers, and Apple Music and Tidal followed suit with one playlist each! Drop A Stitch“, the second advance single, will be released on 5 November, before „Hope Springs Eternal“ will finally be released in a high-quality digipak on 13 November. Snow White Blood open the gate to the magical fairytale world with their symphonic metal. Bombastic orchestra and bell-like vocals meet driving rhythms and striking riffs.

Title: **Touch The Sky**  
Artist: **MUNGO JERRY**

Mungo Jerry - this name is inevitably associated with one song - „In The Summertime“ - proven to be the biggest summer hit of all time and the third best selling single of all time! But Ray Dorset, his real name, is constantly working on new material, writing songs and recording them, always staying true to his blues/folk/soul/rock/skiffle roots. In the summer of 2019, „XStreme“, his latest work of sound, was released to rave reviews from critics and fans alike. With „Touch The Sky“, the man with the sideburns now follows up shortly before Christmas: Eight brand new songs, all in the typical, classic and beloved Mungo Jerry style, yet fresh and modern. As a bonus, the songs „Black Girl“, „La La La“, as well as the title track „Touch The Sky“ are included on the album in brilliant live versions, recorded at the Rolling Stones Fan Museum, Lüchow. „Touch The Sky“ -the new album by Mungo Jerry: A must for every classic rock/blues rock fan!

**TRACKLIST**

Touch The Sky (4:10)
