

Title: **Legend**Artist: **LEGEND**

In the heyday of the New Wave Of British Heavy Metal, the band LEGEND from the island of Jersey (UK) released their eponymous debut album, released by the small label Workshop Records.

Of course, this is a perfect name for a group that has turned to hard rock, but without internet research, there would be no way of knowing that another LEGEND already existed, and not just in England. The now rare original LP was released with a simple yet expressive cover and offered a thoroughly exceptional sound for several reasons. First of all, there was the raw and natural sound, which you can love or hate. For a debut, the group sounds surprisingly experienced, which brings a higher musical level than we find with many other now cult NWOBHM bands. And then the style has to be mentioned, which of course fully fits the New Wave Of British Heavy Metal, but still has a certain seventies punch („Hiroshima“, „Buried Alive“), that has already made fans of acts like Bleak House, Trespass, Jameson Raid or Quartz sit up and take notice.

In 2002, the US underground label Monster Records released a double CD with the first two albums plus additional material. A new scene discovered Legend. This led to a reunion, resulting in a performance at the Keep It True Festival as well as two new albums.

The German band Roxxcalibur even opened their third album „Gems Of The NWOBHM“ (2015) with a Legend cover version, Svart Records and High Roller provided LP re-releases. Pete Haworth, guitarist and founding member, expressed enthusiasm about To Golden Core/ZYX's idea of releasing the first two albums separately (!) as a CD with a new remaster, added with the „Frontline“ EP.

On the „Anthology“ from 2002, the speed was no longer right after the tape overdubbing, which always bothered the guitarist. The collaboration was signed and while the scope of the two CDs was still being discussed, Pete died suddenly. Golden Core conducted email correspondence to the remaining band members and they still agreed to a release - also in memory of Pete Haworth. The debut „Legend“ was mastered by Patrick Engel as part of the LP version of High Roller and can now be found on CD for the first time. The tracks of the EP „Frontline“ (spread over both CDs) were done by Neudi. Two band members provided rare photos and memorabilia, as well as liner notes.

Title: **Porgy & Bess**

Artist: **ELLA FITZGERALD / LOUIS ARMSTRONG**

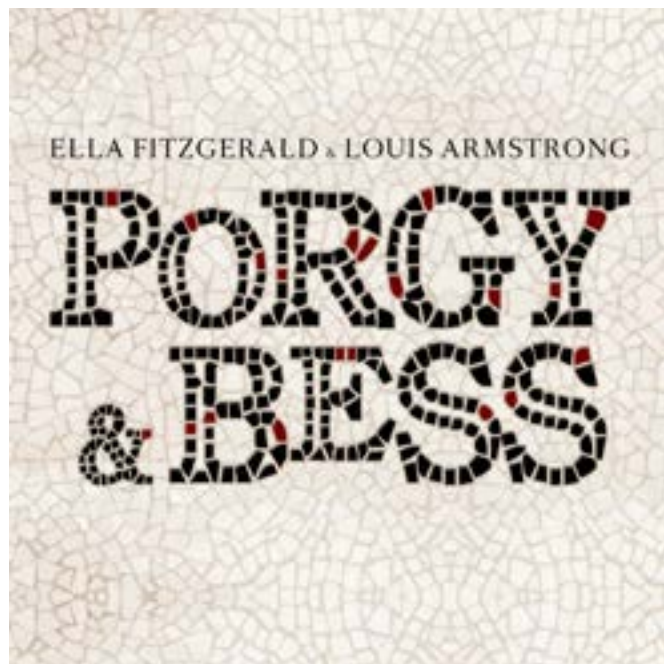

**Porgy & Bess** – The Jazz Opera by George Gershwin, is truly a milestone in jazz history.

It describes the life of African Americans in the settlement of Catfish Row in Charleston around 1870 and tells the touching love story between Porgy & Bess.

The eponymous album by Ella Fitzgerald and Louis Armstrong presents a magnificent selection of the best pieces from Gershwin's opera and is a jewel that no jazz collection should be without.

Title: **Red Neck Roller**  
 Artist: **POKER**

Sometimes you wonder why a record remained unknown and only attracted attention regionally. With Poker you don't know where to start with all the arguments that should have made them conquer the rock world. Let's start with the musicians who founded this band in 1980. The name Kin Ping Meh appears twice, making Krautrock fans sit up and take notice. Guitarist Gagey Mrozeck and singer Michael Pozz belonged to this legendary band, while Peter Oehler (guitar) and Jürgen Astor (drums) came from the Geff Harrison Band. Not only related to the Mannheim area, Poker was an all-star group, especially since the names „Nine Days Wonder“ and „Twenty Sixty Six And Then“ have to be mentioned as well, so that the list of ex-bands is halfway complete. The energetic hard rock was put on LP in 1981 with an internationally competitive production. „Red Neck Roller“ is the name of the „red thing“, which was artistically exciting in terms of the visual concept, but also seems to be of little significance. Even the vinyl itself was red. Neither the cover nor the inside contained a band photo. Another problem was the label SL-Records (Gama), which was still quite new in the business and had by far not such a distribution potential like a major company. Today the experts agree: If „Red Neck Roller“ had been released by one of the big companies, it would have „really hit the spot“! The previously unreleased demo from 1983, which can be found as a bonus on the CD version of this re-release (the LP contains one track of the demo), supports this assumption. Assumption? Let's rather call it fact. So „Red Neck Roller“ became the first and only album of the band. And this album is now released in new splendor for the first time as a reissue (CD, LP) in cooperation with the band (Peter Oehler) and Break Out Classics (Mike Möller) via Golden Core, remastered by Neudi. Some of the band members made a career after Poker was history! Gagey Mrozeck joined Herbert Grönemeyer and wrote for him e.g. the hit „Alkohol“. After his time with Edo Zanki and Poker he was an important part for Grönemeyer from 1982 to 1990. Michael Pozz and Jürgen Astor remained true to rock music! Both joined the British group Tokyo Blade and had their own band called Dead Ballerinas. Astor also drummed with Stahl, while Peter Oehler changed genres and played with Costa Cordalis for many years. Being aware of all those names, it's okay to be a little awestruck. Listening to „Red Neck Roller“, this concentrated competence stands out! It is rounded off by the banal fact that the music of Poker simply rocks! The CD and LP include liner notes, as well as some rare photos and memorabilia.
