Title: Sound And Action - Rare German Metal Vol. 1

Artist: **TRANCE / AVANGER / TYRANT**

The successful compilation „The Best And The Rare Of Gama Records“ already contained a high proportion of German heavy metal from the eighties. Now the Golden Core label is delving even further into the matter!

Inspired by finds that came up during the work on the „Gama Sampler“, we teamed up with the fanzine „Sound & Action“.

The magazine is a real specialist in the field of German Heavy Metal of the 80s.

Editor Oliver Butz is also a private collector and archivist, especially when it comes to the Vorderpfalz region. Neudi from Golden Core Records originally comes from the Ludwigshafen area and has experienced the scene there. He is also right in the thick of things: since 2016, he has been the drummer for one of the very first metal bands from Germany: Trance.

In addition to a few contributions that the two can call „regional“ from their point of view (Trance is probably the most well-known here as well), you can find rarities from all corners of Germany. The best known bands are Avenger (predecessor group of Rage, here with a piece of a 12“ single), Mass, Black Jack Co (predecessor of the speed troupe SDI) and Xandril.

We are already talking about insider topics at this point. Jutta Weinhold should be a well-known name among rock fans. She is represented with an unreleased (!) recording from 1978 (!). She is supported by a band that belongs to the absolute Who Is Who of Krautrock. This oldest song on „Sound & Action“ thus represents German hard rock (or proto-metal), which was important for later artists. An interesting contrast to this is the crude and partly dragging death metal of the almost unknown band Excess and the hectic speed metal of Defender from Speyer. Examples from almost 160 minutes of metallic content!

Most of the contributions on this double CD should be new to the ears of almost all metal fans. It is a pity to consider how many talented bands fell by the wayside for no reason in the eighties and nineties. „Sound & Action Volume One“ is the first step of a kind of mission of the two compilers responsible. On this compilation, rare singles, songs from hard-to-find regional LP compilations, CD in-house productions and of course demo tapes are dug up, restored and remastered, so that in 2021 they can tell their part of the story of „German Metal“. Fortunately, there were hardly any sound problems, only four tracks at the end of CD 2 have small losses, which are discussed in more detail in the booklet. The rest comes out of the speakers like the heroes of the eighties used to, for the most part fresher than many current bands.

Title: **Battlefields**
Artist: **SCAVENGER**

Vinyl

With Cutty Sark, Saints ☐ Anger, Witchfynde, Wildfire and Dark Wizard, Golden Core has already successfully re-released eight classics from the iconic label Mausoleum obtaining many praising reviews.

Actually, the series would have ended here, if the Belgian band SCAVENGER had not expressly requested that Golden Core also re-releases their album „Battlefields“ released in 1985, in order to make it available to fans in the same way. The new owner of the Mausoleum catalogue agreed and the project could get started.

Scavenger are actively playing and recording again, but since February 2020 without any original band member. Instead, the young and very strong new line-up around singer Tine Callebaut was literally trained by the „old ones“. A first single has already caused a stir and a new album is on the way. In order to get back to the old days, Scavenger actively worked on the rerelease of „Battlefields“, the only album recorded by the original line-up. So they donated the demo from 1982, which was released under the name Deep Throat and is now extremely rare and sought-after. A second-generation tape copy was reworked by Neudi (Golden Core Rec., Manilla Road, Trance, etc.) in the best possible way and reveals a group that was still deeply rooted in 70s hard rock even in 1982. Furthermore, as a bonus on CD, you will find various live tracks, which are, in terms of sound, really „for fans only“, but still perfectly reflect the spirit of the times.

The LP version contains only the album „Battlefields“ for sound technical reasons. For both formats, the Mausoleum-Classix CD was not taken, but a new vinyl transfer was commissioned from Patrick W. Engel, which was subsequently remastered by Neudi.

For the LP, Vadim Kulin (ZYX Studio) made a separate vinyl master. The booklet and LP inlay contain many rare photos, liner notes (exclusive interview with the band), memorabilia, as well as scans and an image of the original LP. In 1985, Scavenger skillfully straddled the line between pure European-style power metal and catchy but always powerful heavy metal. Actually, it is clear that the album is considered one of THE classics of Euro Metal today. This is proven not only by the fact that you can order a swimming costume online from the cover artwork of „Battlefields“.

Title: **Captured By The Roots**
Artist: **RESTLESS BONES**

„Captured By The Roots“ is the name of the second production of the band from Graz (Austria), which is released as a digipack as well as limited on colored vinyl as well as on traditional black vinyl on m label 7hard.

Nine fresh original compositions plus a crisp new interpretation - named „Sail Away“ by Deep Purple!

The highlight: None other than Purple keyboardist Don Airey himself played the keys of his Hammond organ to add a wonderful solo to this version.

The nine „original songs“ were all created in the classic way during extended jams in the jams in the rehearsal room of the Bones. Stylistically, the trio sets itself no limits, accordingly varied is now the result. No matter if traditional hardrock, groovy metal, bluesy or even punky snotty: everything flows and grooves. In the lyrics you can find time and socio-critical thoughts as well as quite personally profound - but not necessarily autobiographical, but from an observant point of view on events and happenings of the moment and the personal environment.
