Title: **Metal Ballads - Vol. 1: From The Underground**

Artist: **VARIOUS**

No matter if you are an avowed fan or secretly listen to soulful songs of actually hard bands: hard rock and heavy metal have long also been characterized by ballads and emotionally stirring songs. Not uncommonly, one of such songs became a band's biggest hit.

Well-known examples of this are Uriah Heep and their „Lady In Black“ or Led Zeppelin's unmistakable „Stairway To Heaven“.

Rockers Nazareth also once flooded the radio stations with „Dream On“ and „Love Hurts“.

In the eighties, it was hair metal in particular that provided million-sellers in the smoochy sound. Probably everyone knows „Every Rose Has Its Thorn“ by Poison or „To Be With You“ by Mr. Big. Later, Extreme followed with „More Than Words“ and even the thrashers Metallica played calmer tones by releasing „Nothing Else Matters“.

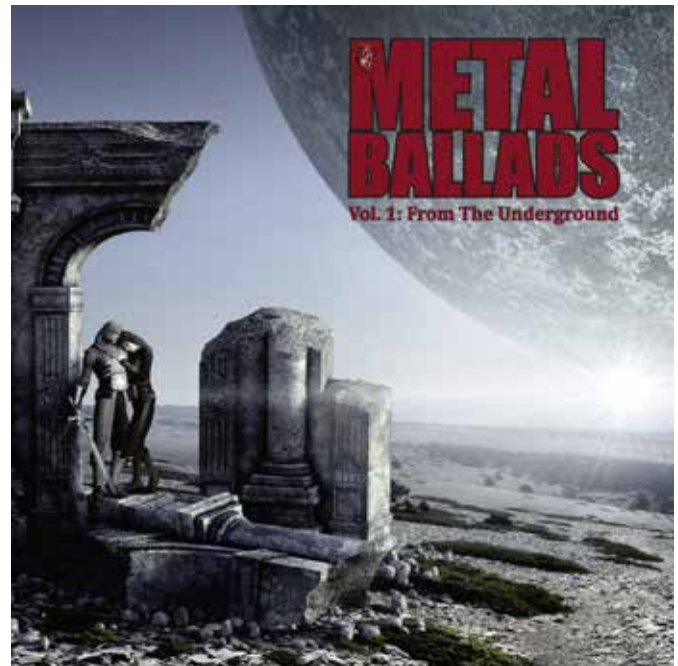

In the eighties, those above mentioned Metal ballads were often compiled on compilations, mostly by the big major companies, which had them under contract.

But even in underground metal, lesser-known metal bands created emotional ballad music.

This disc includes acoustic excursions by Manilla Road, Shotgun Marriage or Mark Shelton, Wildfire (with ex-More and ex-Iron Maiden singer Paul Mario Day), Witchfynde, Castle, Poker, Speed, Cutty Sark or Saints Anger, Ampyre (perfect AOR from the Stuttgart area), Shotgun Marriage (a rare live track, unplugged with cello), the French band Dygitals deliver and the youtube hit „War“ by Viron.

At the conclusion of all these arguments, the main reason for this compilation can be told as follows: Despite streaming and Co, the demand for CDs including metal ballads remains strongly noticeable.

Long-lost musical treasures were found by Golden Core thanks to this insight.

Title: **Resonator**

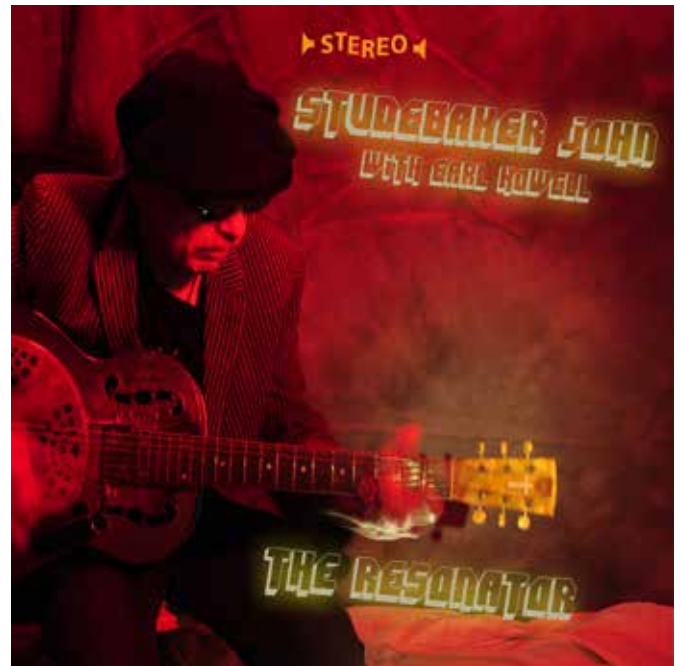

Artist: **STUDEBAKER JOHN AND THE HAWKS**

„Resonator“, the new album by Studebaker John features songwriting of the highest quality. It is named after the resonator guitar, which the artist inherited and with which he then wrote the songs for this album. The sound quality of this album, coupled with the distinctive Resonator guitar and the minimalist use of other instruments, give this album a haunting and spooky feel. Unleashed harmonica and rhythmic repetition leave a sense of trepidation.
