Title: **Sound And Action - Rare German Metal Vol. 2**

Artist: **VARIOUS**

- the long-awaited part 2 of the successful Metal Underground series
- Part 1 received excellent reviews in publications such as Rock Hard, Rolling Stone and Good Times
- 39 titles, 32 of which are on CD for the first time
- Restored and remastered audio material
- Booklet with 20 pages of information and rare photos

Compilations with rarities are not uncommon in heavy metal, but up until now NWOBHM or US metal have been chosen as themes. So the double CD SOUND & ACTION surprised in 2021 and received fantastic reviews across the board, enthusiastic metal fans worldwide.

The title SOUND & ACTION is not only a famous line of text by the metal pioneers Trance (from the piece „Shock Power“), but also a fanzine today, which deals with mostly long-dead German heavy metal bands that never died during their lifetime platform they deserved. The operator, Oliver Butz, is himself a fan of Teutonic metal sounds (primarily 80's) and has been dealing with this topic for many years.

Also from the Vorderpfalz/Rhein-Neckar comes Neudi, who is known as a drummer for bands such as Manilla Road, Roxxcalibur or - since 2016 - Trance. In addition to his journalistic activities and the restoration/remastering of old recordings, he is also a fan and collector and has been an active part of the local and national scene since the 1980s.

So it's no surprise that this team was able to put together an equal second part in a relatively short time (4 months). All titles have been officially licensed and have been processed in the best possible way in terms of sound. Only the last songs on CD 2 show - as with part 1 - slight flaws due to the old source material. Rehearsal room recordings or audience recordings were again deliberately avoided in order to keep the quality level at a high level.

Again, the two CDs open with names insiders should know (Mekong Delta, with a single B-side, and Invader, off their now-rare LP), but dive deep afterward. The Beast predecessor group Sky delivers the oldest contribution (1979), the cult MP shine with an unreleased piece, the Frankenthaler Rampage show what local hard rock concerts felt like in the early eighties and not only at Barfly one wonders why the area-wide no success. The metallic spectrum of styles runs from melodic heavy rock to thrash, just as it was between 1979 and 1995 in Germany. And if you want to have all the original recordings on this double CD (LPs, 7" singles, self-produced CDs, demo tapes, local compilations, private live recordings), you would probably have to take out a loan...

Title: **Tomorrow (There Is A Way)**Artist: **EBERHARD KLUNKER**

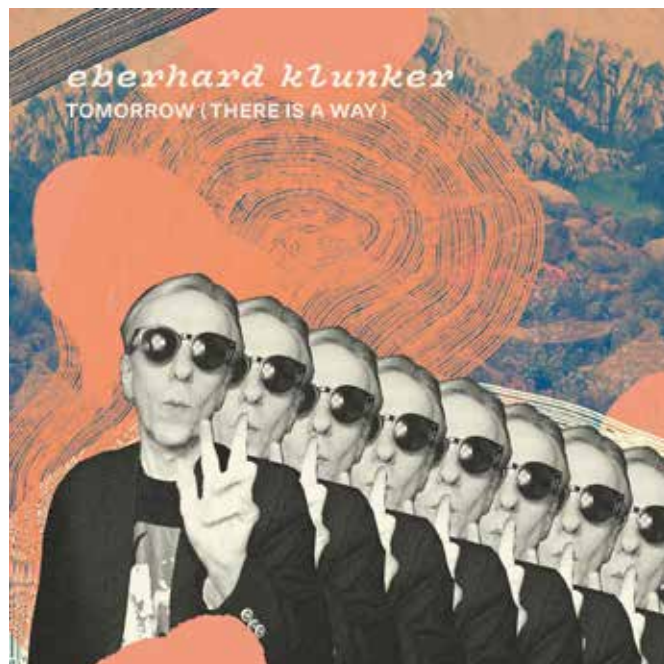

The Berlin guitarist and composer **Eberhard Klunker** has completely dedicated himself to the acoustic guitar. You could call his style „**Acoustic Fusion**“. Going far beyond the „piano style“ tradition, his playing contains elements of the rock and jazz guitar tradition, a conception of harmony and percussive structures. The „Jazz Podium“ wrote, for example: „**Eberhard Klunker** introduces himself as a cool jack of all trades in a number of stylistic alleys“. In order to preserve all the timbres of his instrument, Klunker avoids the use of technical aids and artificial sound processing. His music has a very high proportion of improvisation. A piece is never interpreted in the same way again.

Important influences include **Keith Jarrett, Pink Floyd, Jimi Hendrix** and **Django Reinhardt**.

On 05/27 his latest masterpiece „Tomorrow (There is a way)“ will be released with 8 brand new tracks - not only recommended for guitar lovers!

Title: **Jeder spielt die Rolle seines Lebens**Artist: **ALEX MORGEN**

It's all worthless! ...or is it!?

This is exactly the question the Berlin singer and songwriter **ALEX MORGEN** asked himself in spring 2020 when he released his debut album „Vom Siegen & Scheitern“ shortly before the start of the Corona Pandemic.

At the time, the Schallmagazin wrote that MORGEN's „rough, scratchy voice combined with the pure guitar playing would convey exactly the emotions that are often neglected in smooth-ironed studio productions“ and therefore called his album „Lebendige Musik“.

Exactly this authenticity and this character were always very important to the singer and songwriter in his songs.

The question of whether it is still worth recording an entire album in these fast-moving times, in which it is all about which playlists you end up in as an artist, never arose for the Berliner. For him, the true class of an artist is reflected in the quality of his albums and only secondarily in the individual songs.

So during the first lockdown, MORGEN locked himself back in his home studio and wrote new songs.

Together with producer Christian Kreuzer, the last two recorded 13 songs over the next two years.

Different genres were incorporated stylistically, but oriented towards the sound of the 80s. Somewhere between Bruce Springsteen, Herbert Grönemeyer and Eddie Money, garnished with a modern note à la „the Weeknd“, the album's own character „**Everyone plays the role of their life**“ finally followed.
