Title: **Show No Mercy, After The Bomb**  
 Artist: **HAMMERS RULE**

- first official reissue, artist approved!!
- US-Metal underground classic
- featuring bonus songs from the „After The Bomb“ EP (1985)
- vinyl transfer and cleaning by Patrick Engel, Restoration & Remastering by Neudi
- booklet with liner notes based on a new interview with the three surviving bandmembers
- original USA LP-coverartwork (+ „After The Bomb“ artwork inside)
- one of the best rhythm-sections in the history of Heavy Metal

For a long time it seemed impossible that this gem of US metal would be officially re-released. Even before Golden Core, labels contacted the three former band members who were still alive, but all they got were refusals. „At some point, we just got along on a completely different level than just business, and at some point we got the green light,“ reports Golden Core A&R, who himself is a fan of the long-disbanded group from Baltimore, but also a musician.

Hammers Rule (the name comes from the thanks list of Iron Maiden's first LP) were simply over the top!  
 They financed an impressive stage show with all kinds of effects and custom-made leather outfits before they even had a record on the market. When no major label took the chance (almost normal in 1984),

the band had no interest in leaving the material in the hands of an independent company and produced (as Tangent Records) a complete album themselves with the support of Web (Satan's Host, among others): „Show No Mercy“. The first edition in white vinyl sold very well, but only reached import shops in Europe. The same was true for the EP „After The Bomb“, released under similar conditions one year later. This contained two new tracks (and two from the LP). Nevertheless, there were many enthusiastic reactions from Germany and so they licensed a compilation of the LP and the EP under the name „After The Bomb“ to the German company with probably the worst reputation in the business: Metal Enterprises! Insiders like to joke here „So the label finally had something good!“, but Hammers Rule was in no mood to laugh when, without their knowledge, a series of demo tracks was offered as a second album. Today, the musicians still vehemently distance themselves from this illegal product (LP and CD) and also on this re-release we respect the former members' wish to let this annoying chapter rest. Hammers Rule did not want to commit themselves in terms of heaviness and thus cover an enormously broad spectrum of US metal. While the first four tracks can be classified between epic, heavy and speed metal (as well as the two EP tracks „Kamikaze“ and „Stop The World“), the B-side of the original LP was a bit more accessible and also fits well with the high hairspray consumption of the eighties. But these tracks are also full of energy and playfulness. One of the reasons is the incredibly good rhythm section of drummer Chuck Hohn (with only one bass drum!!) and bassist Shaun Henley. The two musicians operated on the same level as Steve Harris and Nicko McBrain (Iron Maiden). In addition, the powerful omnipresent bass impressively replaces a second guitar. The album and also the EP were mostly recorded live in the studio.

But, one of the most important arguments is that metal fans worldwide have waited many years for this re-release.

Title: **Legacy Or Destiny**  
 Artist: **STARSTRIKE**

It was probably a happy and fateful coincidence, that this record is now being released after 10 years. But it is not only perseverance that characterises STARSTRIKE - that is Matthias „Wauxl“ Pfaller, Martin Buchmann and Andi Gmeinwieser - but above all professionalism and creativity. And they have proven for years in well-known and successful bands like MASS, Grand Sermon, The Cascades, Ravenryde or Rock`n`Rodeo that they know their craft very well. On their debut „Legacy or Destiny“ the three impressively show how they imagine Heavy Metal: Diverse and progressive, but always melodic and powerful. They are following in the footsteps of German metal pioneers like Helloween, Rage and Accept: From double-bass rockers to hymns and ballads, you'll find everything on this record to make your metal heart beat faster.

„Legacy or Destiny“ reflects the themes of our time: money, power, self-destruction, religion and hope. - Do we resign ourselves to our legacy or do we take our destiny into our own hands? The three guys from STARSTRIKE have decided: Legacy Or Destiny!

**Lead vocals, Guitar:**  
**Matthias Wauxl Pfaller (MASS, Ex-Ravenryde)**

**Leadguitar, Bass, Vocals:**  
**Martin Buchmann (Ex-Grand Sermon, Ex Rock`n`Rodeo)**

Title: **Jörmungandr - The Serpent of the World**Artist: **HOLY DRAGONS**

Heavy/power metal act **HOLY DRAGONS** is ready to return with a new release! "**Jörmungandr - The Serpent of the World**" - this is the album name - will be the 16th by the Kazakh band, the 5th released under the wings of Pitch Black Records!

The album's **12 songs** - far from a "radio edit" approach - gradually capture the listener with an arsenal made up of speed, melodies and solos. This is the second album with guitarist Thora Thorheim also handling vocal duties where she uses her voice as an addition to the instrumental background in such a way that it is quite unique and different from today's usual female metal vocals (opera or growling style). Thorheim sings in a rather unrefined and harsh manner, making songs more raw and explosive and certainly more old-school.

For fans of: Metal Church | Gamma Ray | Iron Maiden | Judas Priest | Primal Fear

Title: **Wicked & Divine**Artist: **IRONY OF FATE**

The lyrics in this new release are multifarious, covering socially critical themes such as in „Hypocrite“, moreover, inner conflicts as in the song „Mind vs. I“, and spirituality as in „Wicked & Divine“. To their fans, Irony of Fate present a spectre of sound which is inspired by the Pantera, Metallica, Behemoth, Arch Enemy and Insomnium.

During the creative process for the album, the band's drummer Greg recorded at „Kohlekeller Studio“ (Aborted, Hämatom, Powerwolf, Crematory). Mixing and mastering was done by Frederik Nordström.

Title: **Tell Me The Reason**  
Artist: **ALAN BARRY**

**ALAN BARRY 'Tell Me The Reason'**: Originally released on Discomagic in 1988, probably it's one of the last italo disco classics tracks from the 80s.

The track was composed by **Fred Ventura** (not performed) and **Gianfranco Bortolotti** (Media Records). Very energetic track with a unique structure in its genre, more clubby than an italo classic track.

A unique fantastique lead melted into a likely trancy bassline. Dub version a bit more clubby on b-side.

**HANK SHOSTAK 'Don't Tell Me'**: Released originally in 1986 by the small label Industry it had a short distribution and only a few labels released all over Europe (only south of Europe). Mid tempo track to fit any italo disco mood.
