Title: **German Thrash Metal**

Artist: **VARIOUS**

**GERMAN THRASH METAL** now available as **VINYL!**

For more than 30 years, German thrash metal bands have defined this genre. Bands like **TANKARD** **DESTRUCTION**, **HOLY MOSES** went down in music history. Angry young men, technically limited but hell-bent to play as fast, hard and above all as evil as possible.

For sub-genres such as black or death metal, German bands are considered style setters. This compilation is a tribute to those bands who wrote this history.

A must for all metalheads!!!!

Order-No.:

- HOLY MOSES - DISORDER OF THE ORDER
- VIOLENT FORCE - SOULBURSTING
- PARADOX - SEARCH FOR PERFECTION
- NECRONOMICON - STORMBRINGER

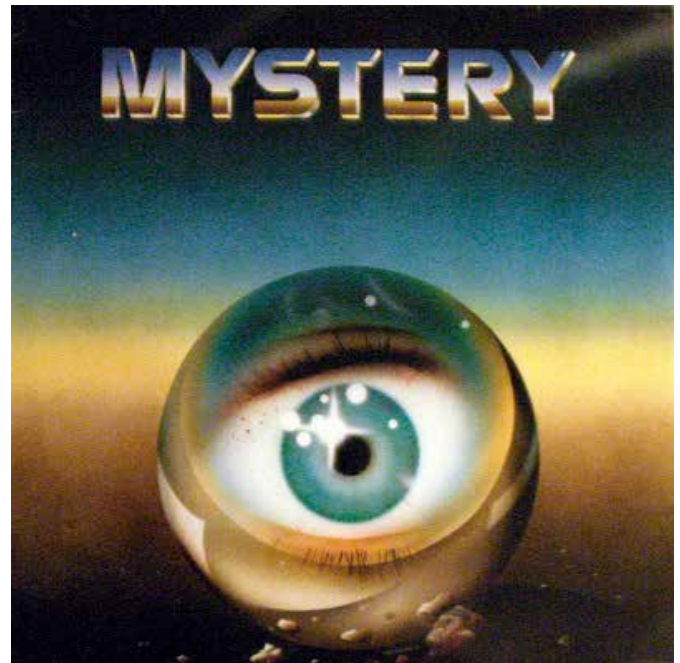

Title: **Mystery**  
 Artist: **MYSTERY**

In 1988, an employee of Noise Records went into business for himself and founded TRC (The Record Company). Alongside Dirty Strangers (with members of the Rolling Stones) and the Spanish hard rock band Helpless, there was this strange record with the futuristic eye on the cover: **MYSTERY**. When it was released in 1988, the LP already polarised mercilessly. While the band had to settle for three points and a somewhat helpless review in the German Metal Hammer, they earned a four-K rating and statements like „What we have here is the most interesting progressive thrash crossover I've heard for a long time“ in the English Kerrang. Looking back, however, it is clear that the world was not ready for this album in 1988.

Listening to **Mystery's** highly idiosyncratic and definitely also unique pieces, one can already assume that there were no young heavy metal fans at work here, following the footsteps of their idols. The songs are full of ideas that most metal musicians would never have had in this form.

In addition, the musical implementation has always given rise to the suspicion that professional musicians from another genre have been engaged to write and record a heavy metal album - of course, while befitting their status with artist names like The Lion or Mike Battista. This is exactly what has now come to light after years of research and will be revealed on release day. Consequently, the disc should also become an object of desire for another target group, but more will not be divulged yet.

The booklet contains liner notes by singer „**Gerald L.**“ telling about the album's background (including names and places). They are joined by **Neudi** (Manilla Road, Trance, A&R at Golden Core), who, as a big fan of the LP, has been working on „solving the **Mystery** case“ since the nineties and only succeeded with it in 2022. This thus led to the re-release after the rights situation (only one musician of the **Mystery** line-up is still alive) could be clarified. Even today, maybe not every metal fan will find his way into the world of Mystery, but those who do will have find an album for life and have to give in to the danger of addiction. There have been enough uniform metal albums in the last 40 years...Discover this album of a kind!

Title: **The Resilient**  
Artist: **SECRET RULE**

**Secret Rule** ist eine moderne Female Fronted Rock-Metal-Band, die Anfang 2014 gegründet wurde. Der Sound ist eine Mischung aus kraftvollen Rhythmen und eingängigen Melodien, gepaart mit einem Hauch von elektronischen und symphonischen Einflüssen. Innerhalb von acht Jahren haben sich **Secret Rule** ihren Platz in der Metalszene erobert und bereits sieben Alben veröffentlicht! Auch live geben die 4 Italiener mächtig Gas und spielten so schon in ganz Europa mit Bands wie **Beyond the Black**, **Xandria**, oder **Visions of Atlantis**.

Das größte Merkmal von Secret Rule ist der kraftvolle und kristallklare Gesang von Angela Di Vincenzo, der von Leadgitarrist Andy Menario und dem kraftvollen Schlagzeugspiel von Sebastiano Dolzani gekonnt in Szene gesetzt wird.

Order-No.:

Title: **ÁVITUN**  
Artist: **SÁRR**

**Sárr** is a solo side project of Pórir - a multi-instrumentalist, producer, mixing / mastering engineer - from the Experimental Black Metal band Nyss that began in April 2018 as a means to create pure nihilistic music that haunts deeply within the listener with no boundaries or comfort.

**Sárr** is not DSBM, it is nihilism. The difference being personal strength through the hellish life we all must endure. As with all of Pórir's projects the music is not necessarily 'written' in the classical sense, the music comes from deep thought, meditation and the building of layers given from an external, maybe even spiritual force.

Only recording when the calling came for creativity, nothing was forced, it had to be natural, so forgetting many of the typical restraints of clean audio production was essential for this project, it was created straight to tape with virtually no editing to maintain the raw and icy edge.

Title: **Oak Tree**Artist: **TOM HARRELL**

In the course of his career, **Tom Harrell** has left his mark across a wide range of styles, including propulsive bebop, rhythmic Afro-Cuban jazz, studied classical compositional procedures and soothing smooth jazz. In any **Tom Harrell** performance or recording you will search in vain for Freudian high-note jabs and dazzling displays of over-heated velocity full of empty technique. There's a remarkable ease and affability to **Oak Tree**, a recording which features melodies that occasionally sound as inevitable as life itself. And these melodies are played by a quartet which may be one of Harrell's most symbiotic ensembles; the fluency of superb pianist Luis Perdomo sometimes providing extensions and commentary to Harrell's improvisational thoughts, the extremely musical drummer Adam Cruz constantly adjusting both his tone and the intensity of his pulse as each composition dictates and bassist Ugonna Okegwo a secure, steady anchor and superb improviser. As for the leader himself, he favors concise, intense solos where the supremacy of his improvising abilities lies as much in what he chooses to leave unsaid as what he allows to peal forth from the bell of his horn. You can write volumes and use any superlatives you like to describe Harrell's playing but, simply put, he is one of those rare figures who has extended the communicative possibilities of the jazz trumpet while establishing himself as one of the art form's most important composers.

**Luis Perdomo** – piano, Fender Rhodes  
**Ugonna Okegwo** – bass  
**Adam Cruz** – drums

Title: **My Father's Hands**Artist: **CYRUS CHESTNUT**

There have been a number of famous jazz artists whose offspring have followed their father's footsteps into music. Think only of Ellis Marsalis and his sons, Dewey and Joshua Redman, Papa John and Joey DeFrancesco, Bucky and John Pizzarelli, Walter and Nicholas Payton and Harry Connick Senior & Junior. But for every famous father in jazz there are an unknowable number of fathers who inspired and nurtured their progeny's talent from the sidelines and encouraged them to go into music and pursue their dreams. Such a man was McDonald Chestnut whose internationally renowned son, pianist **Cyrus Chestnut**, remembers his dad with this touching memorial, *My Father's Hands*. By carefully choosing a wide range of repertoire – including originals, standards and jazz classics – and with the great bassist Peter Washington and the legendary Lewis Nash on drums, Cyrus has crafted not just an intensely personal reminiscence but a truly beautiful jazz album in all respects. The material is strong, the sequencing uniquely satisfying and the performances display a unity of conception and execution that can only be called remarkable. Top it off with the exceptional recording quality and you have not only another fabulous jazz record, but a lasting and moving tribute to a father from his son.
