Title: **Dark Techno 2023**

Artist: **VARIOUS**

„There are only few DJs who polarize the German techno scenes as much as Sebastian Groth. Love him - or hate him!“

The German DJ and producer focuses on relentless and high tempo techno, raw sound design and old-school influences. Now Groth presents the latest edition of **DARK TECHNO 2023**. Said DARK TECHNO is a style of techno that has been haunting the scene for a few years now and - just as the name suggests - a dark style of techno peppered with proper reverb and abstract claustrophobic sounds.

This DCD invites **all current and future die-hard fans** to get down to all the hip and hot Dark Techno tracks.

Title: **Rise Of The Apocalypse**
Artist: **CHAOS PATH**

The world as we know it is undergoing ominous change and is on its way to an uncertain future. In the midst of the global crisis, the band Chaos Path manifests itself in 2016 in Kassel, northern Hesse. Chaos Path worship chaos and yet are not a weapons show of technical possibilities, no their scope is much more precisely aimed. „Reduced to the Max“ is the key to follow the quartet on the path of chaos.

If Nordic-influenced melodic death/black metal and the gruffness of German thrash metal can create a distinct brew, then you're in Chaos Path's crosshairs. In March 18 the first EP „**The Awakening**“ was released, in September 2019 followed the first full-length LP „**Downfall**“. In 2020/21 there were internal reshuffles and Soul Obliterator became the new drummer. In early 2022 the new EP „**Dark Times**“ was released, since March Nocturnal Reaper is guitarist of the band and in November The Doom Lord (bass) joined the band. Currently they are working on the second disc, which will be released in all formats as well on Golden Core/ZYX.

„**The Awakening**“ and „**Downfall**“ were physically released only on vinyl so far. Golden Core close this gap and summarize the two releases with three unreleased live tracks on CD.

For this purpose, not only a new, very appealing cover was created, but also a new title with „**Rise Of The Apocalypse**“. The band is very busy in 2023 and plays among others at the Hell Over Halen Festival. In addition, they are an important part of the very active scene in and around Kassel, as well as the metal underground in general.

Title: **On The Altar Of Rock**Artist: **SACRIFICE**

Switzerland also had (and still has) a lot to offer in terms of hard music. Sacrifice from Délemont was already founded in 1982 and drew attention two years later with a now very rare EP. The catchy arranged mix of heavy metal and hard rock was not only well received nationwide, but also called the German company **GAMA** on the scene, who released the debut „**On The Altar Of Rock**“ on their label Camel in 1985. In good condition, collectors today have to reckon with 50 euros and more to purchase the original LP with the tasteful cover. In 1990 a CD of the record was released (**Aurophon**). In 1991 they recorded another album under the name Jade, which turned more to hard rock.

„**Encyclopedia Metallum**“ lists the band as Heavy/Power Metal and with that you are right, at least for the year 1985. For many years the LP remained unnoticed, but with the advent of the Internet and social media got more and more (young) fans. So a CD version of the album is released by a South American company, while Golden Core re-releases the vinyl.

This re-release was made in collaboration with some former band members, so a printed inlay with liner notes and photos was possible. Despite the bonus tracks, the playing time has remained at a level that guarantees the best possible sound quality.

The track „**Little Killer Man**“ was released in late 2020 on the double CD „**The Best Of And The Rare Of GAMA Records**“ released by Golden Core and got a mention in numerous reviews.
