Title: **Johnny Black Band Album**

Artist: **JOHNNY BLACK BAND**

You'd think the world would be small enough by now to know a punk rock legend like Johnny Black (aka. John Black) who lives and works in the New York area...

He started out in clubs like CBGB and in 1990 an obscure album was released under the name JOHNNY BLACK EXPERIENCE, which has long been out of print. Together with the well-known actor Michael Imperioli (The Sopranos, among others) he put on the show WHO KILLED JOHNNY THUNDERS? and recorded two songs with Walter Lure, guitarist of Johnny Thunders And The Heartbreakers. Johnny Black was and is in the middle of it instead of just being in it...

In fact, he has been so busy with shows in recent years that an album already produced was not a focus for him. This is incredible not only because of the quality, but also because Daniel Rey, a renowned producer, was at the controls! Known for his work with the Ramones, Misfits, Gang Green, Rhino Bucket or Masters Of Reality („Sunrise On The Sufferbus“), he gave the untitled record an organic-transparent sound with a lot of authentic power, which brings the feeling of a sweaty club into the living room at home. A small masterpiece.

While punk today is often mass pop or, conversely, turns into hardcore, Johnny Black serves the original American school. A lot of rock'n'roll and (as they like to say today) classic rock, but also the brashness and attitude of punk and garage rock. Golden Core/ZYX Music are proud to have won the contract for the CD and LP release! The theme will be the absolute focus of Golden Core/ZYX Music over the next few weeks.

Title: **The First Experience With The Unknown**

Artist: **SACRAFICE**

In the Detmold area (Westphalia, Germany), there wasn't much going on for metal fans in the first half of the eighties. Fortunately, the members of two bands met in 1982 in a chip shop and recognized their common preference for hard music by their long hair, leather jackets and moustaches, which were good manners at that time. In this moment SACRAFICE were born, who subsequently became local heroes - of course influenced by the NWOBHM that was just spilling over into Germany, but also by the usual suspects like Black Sabbath, Deep Purple, Rainbow or Kiss, as well as Judas Priest and the early Accept. Two unusual choices were made at once: In the spirit of Def Leppard or Led Zeppelin, the band name was deliberately changed - i.e. NOT Sacrifice, but Sacrafice.

And they decided not to make the typical demo tape, but a 12" EP on their own. This one is called „The First Experience With The Unknown“ and can be bought here and now on Discogs for 120 Euro and more used.... But already the book „Heavy Metal Made In Germany“, which was published in the nineties via Iron Pages, lists the record as „Top German Metal Rarity“.

No wonder, because the quite aggressive heavy rock and metal knows how to please even today - or maybe especially today - and reminds us of the upbeat mood of the German metal scene in the first half of the eighties. This is also true for the three live tracks, which have been elaborately restored in days of work. Another house number are the tracks of the follow-up band TranQuill (that's right, that's the correct spelling). The mostly overlong songs can be classified as heavy prog. Due to various circumstances these pearls remained (as good as) unreleased. Again, a lot of time and work was invested in restoring and mastering these private studio recordings (there are six long TranQuill songs on the CD version, while there was only room for two tracks on the LP, without losing sound quality). As always, the printed inlay contains liner notes (actual interview with a former band member). Photos and other illustrations. The CD version of the Golden Core re-release has already received very good reviews in Rock Hard and Good Times, among others!

Title: **A New Beginning - Alto Saxophone with Strings**
Artist: **ERIC ALEXANDER**

As difficult times often beget new beginnings, the COVID-19 quagmire gave birth to alto saxophonist **Eric Alexander**. To some, a tenor-to-alto switch may not seem to be a newsworthy matter, but for the initiated it's the stuff of headlines. An inveterate tenor at the apex of the scene for more than three decades, Eric put the alto away in his teen years and never looked back. "But with the dearth of opportunities to play during the pandemic, I started to work on it," he confesses. After successfully pitching the idea of using his second saxophone-with-strings project as a debut on alto, the present recording is quite simply astounding. Working with his regular rhythm section and adding ace string arrangements, this altoist delivers one revelatory performance after another.

Title: **Exactly Right!**Artist: **LOUIS HAYES**

Louis Hayes' music is full of life and humanity. It is sometimes refreshingly simple and sometimes intricately complex, sometimes light, sometimes dark, but it is always interesting and consistently engaging. Through it all, **Louis Hayes** has always remained indefatigably optimistic and his latest Savant release is all those things. Throughout the album Hayes, a 2023 NEA Jazz Master, coaxes concise, well-conceived tracks from his players where everybody swings with loads of feeling, and no self-indulgence. From the first note to the last Hayes creates performances that take veteran jazz listeners into deep jazz waters while at the same time allowing recent converts to safely wade into the invigorating flow of ideas.
