Let's enter the next round!

Italo Disco fans can have a good time, because on 25. August 2023 another volume of the successful compilation series - „ZYX ITALO DISCO HISTORY“ - will be released.

As with the episodes before, the song selection was again made in collaboration with Italo Disco legend Flemming Dalum.

Title: **Long Live Heavy Metal**  
Artist: **3 INCHES OF BLOOD**

**3 Inches Of Blood** from Canada started already in **1999** and could present their debut in **2002**, still on a small label. This led to a deal with Roadrunner Records, for whom they recorded two albums, followed by a collaboration with the equally renowned label Century Media, where the sensational „**Here Waits Thy Doom**“ was released in 2009.

The album not only entered the U.S. charts, but even featured a real scene hit with „**Preacher's Daughter**“. The deliberately slightly pixelated cover artwork still seems a bit bizarre today and might lead you on a wrong track - just like the name of the band, which could also be associated with a much more modern style. The choice of producer could also be described as unusual, because **Jack Endino** was the figurehead of the grunge scene in and around Seattle in the nineties. But also there is all-clear, because the dry, powerful sound screams only two words: **Heavy Metal!**

In 2009, the medium vinyl was more a case for the collectors and so the entire playing time of the album was pressed on a simple LP, which was anything but optimal in terms of sound. This major shortcoming Golden Core could now finally get out of the world! „**Here Waits Thy Doom**“ is not only released as a double LP in gatefold, but also features two bonus tracks. The audio material was made especially for the medium vinyl and goes sonically more in depth than the CD.

Title: **Ecstasy**  
 Artist: **DEATH WARRANT**

Not only the NWOBHM or US metal have produced genuine and wallet-nibbling rarities, but also German acts that tried their luck in the first half of the eighties not by means of demo cassette(s), but with a self-produced record. The EP of **DEATH WARRANT**, which is often titled „**Ecstasy**“, is one of the rarest and most exciting rarities that German heavy metal spawned. The core of the band from Baden-Württemberg was formed already in the seventies and after some line-up changes they finally called themselves **Death Warrant**. The first demo recordings were made in 1980/1981 and could be saved and reworked for these re-releases. The proof that **Death Warrant** was one of the very early bands in German Metal is irrefutable. The landlord of the local pub then financed the highly motivated band the vinyl EP, **famous in collector circles**, which was recorded in the studio of Antoni Records. The logo of this company can also be seen on the record, but it is still a self-pressing. Four songs were recorded (still 1984), which capture the zeitgeist of the early years of **German Metal**. That the musicians already had experience can be heard in the tracks, because despite the rough shell it is not „rumble“. Unfortunately, some members did not want to take the next step and the band broke up. An unrecorded EP was overdubbed and cleaned by Patrick Engel, then the material, including the early demo recordings, was restored and **remastered by Neudi**. The booklet or LP inlay features an extensive interview with singer Wolfgang Marquart, who is now a piano teacher. Thanks to this re-release, this piece of German metal history can now wander into the living rooms at home, without the need for a small loan for the purchase.

Title: **Fatal ist mir das Lumpenpack-Eine Hommage an Heinrich Heine**  
 Artist: **MATTHIAS ALMSTEDT (FEAT. CHRISTIAN GÖMPEL)**

90 years ago in 1933, Heinrich Heine's works were banned and burned. For us, this is a special occasion to remember Heine's work with a tribute to this great poet. 200 years ago in 1823, in his novel Almansor, Heine wrote almost prophetically: „Where you burn books, you also burn people in the end“ , which was then to come true in the most terrible way with the seizure of power by the National Socialists in 1933.

In his work, Heine repeatedly and mercilessly took aim at xenophobia, intolerance, national pathos, double standards and Germanophobia in a sharp-tongued, cheeky and ironic manner. Even today, these themes show a frightening topicality.

This CD focuses on Heine's development from „runaway romantic“ - as he called himself - to political songwriter. It contains poems, songs, aphorisms and provides biographical insights into his life and work.

Listeners can expect amusing and thoughtful, cheerful and profound, dreamy and blasphemous minutes.

Title: **Angel's Share**Artist: **WHY AMNESIA**

Get out of the way, here comes **Why Amnesia!** Really, with their black leather jackets, denim vests and dark retro sunglasses, they have a bit of a **biker gang** about them. Which somehow fits, because their music is the perfect soundtrack for a motorcycle tour over dusty tracks: **fast-paced drum rhythms, tight basslines, powerful, partly grungy electric guitar riffs** and a female voice that easily switches between whiskey pipes and ballad-like tones, to heat up again right after...
