Title: **To The Top**  
 Artist: **OVERDOSE**

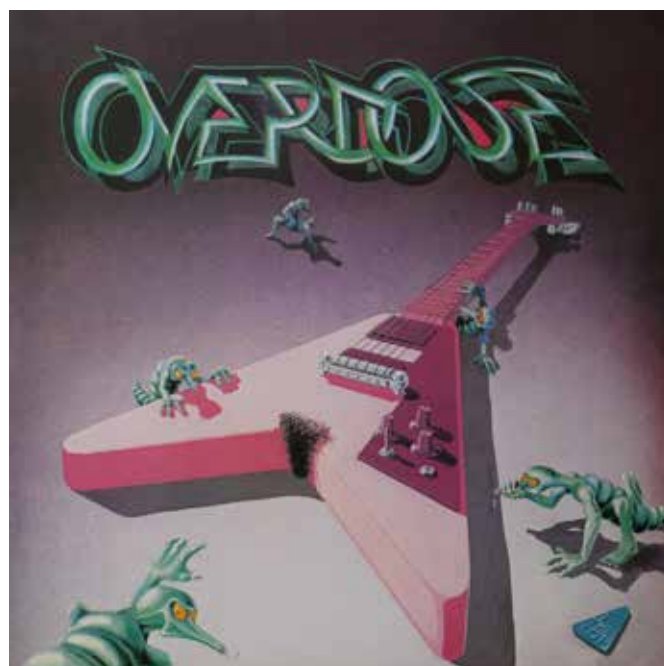

-one of the absolute German Metal top rarities for the first time as a re-release

-audio transfer by Patrick Engel, remaster by Neudi

-LP with printed Inlay (incl. exclusive interview)

-first official re-release after several illegal CD-pressings in bad quality

In recent years many labels have tried to get the cult album „To The Top“ by the Augsburg band OVERDOSE from 1985 for a re-release - without success. Also at Golden Core the research took over a year (!) until they finally got in contact with the original member „Coco“ who agreed to a re-release. The group was only active for about three years and neither before nor after the LP there were no further recordings. Instead of a demo, they invested in a self-pressing. The rest is history and sheer horror for collectors who want an original of this rarity. The varied Heavy Metal, from the fast opener and title song „To The Top“ to the closing gutter hit „Rockfever“ is just not only rare, but also rousing and simply good. The re-release on Golden Core has to do without bonus tracks this time, but the inlay offers an interview with the original member „Coco“, which finally brings light into the darkness. The audio transfer was done by Patrick Engel from an unplayed (!! ) LP, the remastering was done by Neudi afterwards. Of course, a separate master was made for vinyl. „To The Top“ is a journey back in time to the first half of the eighties and offers a metal aesthetic that no retro band can manage today.

Title: **Have Courage Dear Heart**Artist: **LIV KRISTINE**

Liv Kristine's compilation EP „Have Courage Dear Heart“ is a re-press. I bring together nine tracks, thereof four new compositions and five of my favourite live songs. The title track Have Courage Dear Heart, originally existed as a mandolin tune, which my composer Tommy had sent me “just for fun“ early summer 2019. After I had recorded my vocals the song just started growing and shining. We really wanted to keep this underlying Morricone vibe and somehow the perfect sound just manifested like in an imaginary widescreen Western movie setting. The track Skylight, which was released as a strongly limited single in December 2019, got its own cathedral version. Moreover, we thought it was time to wipe off the dust from an old, brilliant demo Serenity, which expresses this cool “kick-ass-Saturday-morning“ drive vibe. All compositions deal with deeply personal issues such as the beauty of nature, the universe and its laws, twin-soul connection, self-love, narcissism, healing and finding a voice. Thank you, Michael, Allegro Talent Media for encouraging me to release this EP “on our own“. I know that my fans have become accustomed to waiting patiently between my albums. This is, after all, half-way to the album. I needed to devote myself to family life, finding my own voice, trust, freedom, seeing the whole, the balancing powers and the given abundance of the universe. I had to learn to open up my heart and release fears. I did, and I found unconditional love. The cover artwork conveys that frequency of having found my passionate authentic voice, that divine truth and source in my heart.

Title: **Anthem Of Unity**Artist: **JOEL HARRISON**

Guitarist Joel Harrison's 25th CD, Anthem of Unity, brings together a once-in-a-lifetime ensemble that showcases his most pointed and focused work as a jazz musician yet. The team of Gary Versace, with his virtuosic and soul-drenched B-3 organ, Greg Tardy, one of our finest jazz woodwind players, and the legendary drummer Jack DeJohnette, exhibits extraordinary musicianship in a program of six Harrison originals, Sonny Rollins' „Doxy,“ and Bob Dylan's „The Times They Are A-Changin'“. Tardy shows the range of his considerable abilities here, developing interesting ideas and phrases throughout his many solos. Versace has been about everywhere at this point, with giants such as Maria Schneider, the late John Abercrombie, Kurt Elling, Al Foster, and he anchors the bottom end on the Hammond as DeJohnette continually ignites the band. This is a blowing session, at times tender and at times volcanic, whose interplay and organic, visceral power is palpable from the first to last tune.
