Title: **New Built Ghetto Status**

Artist: **ECONOMIST**

-**One of the most creative & underrated metal albums of all time**, for the first time on vinyl!
 gatefold double LP with four-page insert (including previously unpublished photos)
 -**special vinyl mastering**
 -with additional songs from the previously unreleased album „Mind Movies“ (1995)
 -with later members of **Manilla Road, Viron, Still Patient and Roxxcalibur, among others.**

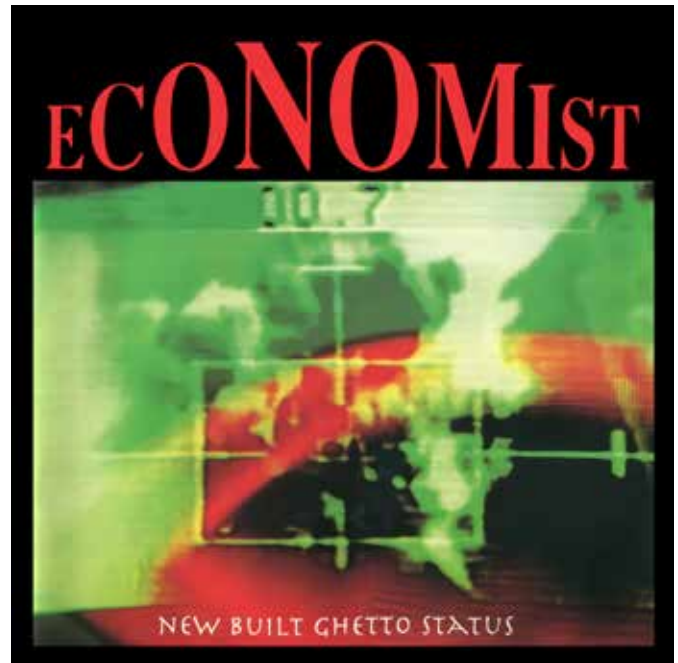

Sudden Darkness was an unlucky speed and thrash metal band from Germany’s Rhine-Neckar region. The status of „Local Heroes“ remained attached to them, as the „**Fear Of Reality**“ LP recorded in 1988 for GAMA Records was never released, apart from 12 (!) test pressings. The band split up, but bassist Guido Holzmann and drummer Neudi continued with a new singer (Axel Schott) and guitarist (Roger Dequis). Instead of letting the frustration of their career degenerate into even harder music, the new line-up, now with a „**melodic singer**“, showed unlimited creativity, resulting not only in a name change, but also in a new style that brought together just about every aspect (at the time) of heavy metal.
 In 1993, the debut album „**New Built Ghetto Status**“ was released, first on CD, then by Massacre/Intercord. On the one hand, it received rave reviews and posted four-figure sales figures, but on the other, it caused problems for the press and some metal fans. To this day, there is no band that sounds like Economist, which naturally makes it difficult to describe the style. The band itself has described its music as „**psycho metal**“, although there is a certain closeness to Anacrusis, Damn The Machine, Voivod, Black Sabbath and other American metal bands.

A second album („**Mind Movies**“, 1995) has remained unreleased and can be heard in its entirety for the first time on the double CD „**ICEFLOWERED - THE COMPLETE WORKS**“ (released in 2021 by Golden Core). Today, after another 25 to 30 years of heavy metal history, the two discs are easier to understand and make more sense than many fans could or didn't see at the time. Some of Economist's musicians went on to appear in such well-known bands as Manilla Road, Roxxcalibur, Savage Grace, Century, Viron, Jameson Raid, Still Patient and Trance.

Darkthrone's Fenriz praised Economist's work and called the style „the metal extravaganza of the ‚90s“, even placing the band above predecessor Sudden Darkness.

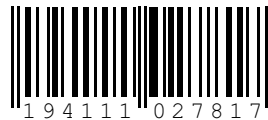

The double LP is released under gatefold and also includes a four-page printed booklet. A week before handing it over to the pressing plant, guitarist Roger Dequis discovered two sheets of slides containing an unused photo shoot for the second „**Mind Movies**“ album. Some of these photos are now visible for the first time. On two pages, drummer Neudi tells the story of the band and goes into great detail about the songs, adding to the listening pleasure. In particular, we learn that all the sound effects are handmade - from the rhythmically shattering light bulbs to the pipes of an industrial air-conditioning system...

This double LP is the ultimate tribute to a band that deserved more attention then and now.

Title: **My Veneration**
 Artist: **PATRIARCHS IN BLACK**

- the band featuring **Dan Lorenzo** (Hades, Non-Fiction) and **Johnny Kelly**

(Type O Negative, Danzig, Quiet Riot)

- **already very good reviews in the press for the CD version**
- mastered for vinyl, printed insert
- Many guest musicians, but this is **NOT** a project, **it's a GROUP!**
- **Exclusive bonus track on vinyl!**

Just over a year after the furious debut album „**Reach For The Scars**“, riff machine **Dan Lorenzo** (Cassius King, Hades, Non-Fiction) proves once again that he simply can't live without them, and presents, together with drummer **Johnny Kelly** (Danzig, Type O Negative, Quiet Riot), the second album from their joint project **PATRIARCHS IN BLACK**. Once again, the duo call on an illustrious group of guest musicians. It's almost as if no-one can escape the stoner/doom/rock spell, because on „**My Veneration**“, the guest list reads like a who's who of the rock and metal scene.

In addition to **Karl Agell** (COC), **Dave Neabore** (Dog Eat Dog), **Rob Traynor**, **John Kosco** and **Eric J. Morgan**, already featured on the previous opus, artists such as **DMC**, **Mark Sunshine**, **Kelly Abe**, **Gianni Pontillo** and many more immortalize themselves this time around on songs that mercilessly escape the speakers to lodge themselves directly in the listener's ear canals.

Each track has its own individual charm, yet **Lorenzo/Kelly** manage to make the album sound like a single entity. Entertaining, varied and with an incredible love of rock'n'roll, **including a Queen cover to be found exclusively on this vinyl version.**
