Title: **Tomorrow's Another Day**Artist: **JEREMY PELT**

Tomorrow's Another Day may be trumpeter and composer Jeremy Pelt's most experimental recording to-date, notable for its variety and bold auricular explorations. With greater emphasis on the dynamic aspects of sound, it is a thought-provoking record that gets a huge lift from the participation of drummer/technologist Deantoni Parks, who previously has lent his remarkable talents to such visionary artists as Meshell Ndegeocello and André 3000. Pelt's newest band features vibraphonist Jalen Baker, guitarist Alex Wintz, bassist Leighton McKinley Harrell and drummer Allan Mednard, with pianist Frank LoCraсто on two tracks. Their talents seamlessly come together to produce an utterly unique universe of sounds, which have the ability to evoke gritty scenes that pulse with elemental energy, or surge transcendently skyward. Through it all, it is the trumpet and creative presence of Pelt which provides a sense of ballast to the myriad sounds and textures with an intensely personal and mesmeric weave of arguably some of the most stunningly imaginative and communicative work he has given us so far.

Title: **Plays**  
Artist: **NICOLE GLOVER**

Nicole Glover has been getting some well-deserved exposure recently in the context of groups like the Artemis sextet and the Jazz at Lincoln Center Orchestra. But this tenor saxophonist is best appreciated on her own albums, where she fronts a saxophone-bass-drums trio. While not a common jazz format, this instrumentation has sired some classic recordings, beginning with a 1945 Commodore record by Don Byas and Slam Stewart (whose foot-tapping qualifies as “drumming”), through classics by Sonny Rollins, Joe Henderson and Ornette Coleman, to contemporary trios led by Branford Marsalis and Glover’s label mate, JD Allen. Glover’s own trio features the rich, full-toned bass of Tyrone Allen and the sensitive, yet propulsive drumming of Kayvon Gordon. A special guest on the recording is vibes master, Steve Nelson, of whom Glover says, “He’s incredible to work with because he is just a phenomenal musician. . . . He enhances everything he is a part of.” This foundation provides two (or three) streams of sound beneath Glover’s improvisations, allowing her complete freedom to be lyrical or driving as she chooses, while maintaining the aural identity of the ensemble.
